

Winter Terrain Park Best Practices Criterion III: Operations

III. Operations

III.A. Compliance

Criterion III.A.1: Best practice in winter terrain park operations includes the inspection and written confirmation that the terrain park layout and features meet planning and design compliance defined in Criterion II.

Rationale: This criterion insures compliance with park and feature layout plan required under Criterion II.C.

Criterion status: Approved February 16, 2012.

Criterion III.A.2: Best practice in winter terrain park operations includes written confirmation that staffing assignments and training comply with terrain park staffing plan established under Criterion I.B.

Rationale: This criterion insures compliance with staffing requirements under Criterion I.B.

Criterion status: Approved February 16, 2012.

Criterion III.A.3: Best practice in winter terrain park operations includes written confirmation that the necessary terrain park equipment is in place and serviceable.

Rationale: This criterion insures compliance with equipment requirements under Criterion I.B.

Criterion status: Approved February 16, 2012.

III.B. Procedures and Maintenance

Criterion III.B.1: Best practice in winter terrain park operations includes documenting via logs or other reporting mechanism the completion of the required operational procedures as specified under the operations plan required under Criteria I.C.

Rationale: This criterion insures compliance with Criterion I.C.

Criterion status: Approved February 16, 2012.

Criterion III.B.2: Best practice in winter terrain park operations includes performing the required periodic inspection and maintenance of the terrain park and documenting compliance through a checklist or log.

Rationale: This criterion insures compliance with Criterion I.C.2.

Criterion status: Approved February 16, 2012.

Criterion III.B.3: Best practice in winter terrain park operations includes closing features found out of compliance in a timely and safe manner and documenting the feature closure and reason.

Rationale: This criterion insures continuing compliance with planning and design Criteria II.D.

Criterion status: Approved February 16, 2012.

III.C. Incident response and reporting

Criterion III.C.1: The resort must provide those assigned to monitor the terrain park the capacity to communicate electronically or directly with emergency response staff.

Rationale: This criterion insures compliance with planning and design.

Criterion status: 1Approved February 16, 2012.

Criterion III.C.2: Best practice in winter terrain park operations includes having sufficient trained emergency staff to respond to incidents.

Rationale: This criterion insures compliance with management Criterion I.D.2.

Criterion status: Approved February 16, 2012.

Criterion III.C.3: Best practice in winter terrain park operations includes conducting and documenting drills of their emergency response plan at least once per year or whenever there is significant personnel turnover.

Rationale: This criterion insures compliance with management Criterion I.D.2.

Criterion status: Approved February 16, 2012.
